COMPOSITION & MATERIALS

Vetrazzo is manufactured using a patent pending composition that combines up to 85% recycled glass with Portland cement, water and proprietary inert ingredients such as minerals, pigments and other non-VOC substances. Years of research, combined with strict manufacturing tolerances and quality control, produce panels with dependable performance characteristics.

BASIC USES

Vetrazzo® is a recycled glass surfacing material ideal for residential and commercial applications; most common applications include:

- Countertops & islands
- Bar tops
- Hearths / Fireplace surrounds
- Tub decks
- Shower surrounds
- Tables

Thickness: Slabs are 60" x 108", 3-cm thickness

Weight: Approximately 14.6 lbs/sq. ft.

Finish: Available in a wide array of colors with a high-gloss, polished finish.

Feature: Polished edges reveal gorgeous dimensions of glass. Custom mixes are available

MAINTENANCE

Vetrazzo is an extremely durable and easy-to-maintain surface. It's very similar to granite in strength, scratch resistance, heat resistance, durability, and care and maintenance. Wash it with a mild non-abrasive soap and water. As with marble and granite Vetrazzo should be resealed every year or two.

FABRICATION & INSTALLATION

Vetrazzo can be fabricated into counter tops to exact customer specifications and installed by ICON Stone & Tile, Calgary's certified fabricator & installer.

CERTIFICATIONS

- Vetrazzo can contribute to earn up to 5 LEED credits
- National Sanitation Foundation (NSF-51) certified for food contact

WARRANTY

Vetrazzo recycled-glass carries a 10 year installed warranty when properly installed by an authorized fabricator.
