

AROUND THE HOUSE

Icon Stone & Tile expands

DESIGN • If you're planning on moving forward with that kitchen or bathroom renovation, it'll be worth your while to stop in at Icon Stone & Tile's newly renovated showroom.

With an additional 4,000 square feet to exhibit a wide array of porcelain tiles and mosaics, as well as a collection of quartz, marble and granite slabs, Icon Stone & Tile's director of marketing says their new studio-like workspace displays products comparable to how a gallery would show artwork.

As a previous Sam Award winner and with a reputation for supplying exotic, custom-sourced kitchen and bathroom products, Icon attracts retail customers, interior designers, architects and home builders seeking the latest trends.

Icon Stone & Tile is located at 525 36th Ave. S.E. You can learn more about their new space by visiting iconstonetile.com.
