

# Corduroy on the walls for fall

**NEW TILE** • Who says fall's most loved fabric only works on trousers? Why not ensconce yourself in ridges by putting up corduroy tiles? The surface pros at Icon Stone & Tile now carry textured stone wall tiles that look like the fabled fabric. Check them out in Black Sand, Blue Lime or White Crystal at [iconstonetile.com](http://iconstonetile.com).

The tile shop carries a large selection of wall tiles, from bricks to tiny glass mosaics.
